Mobile: undefined

## Skills Summary

---

- C++, Node.js, React.js

## Education

---

- **Vce-vaageswari College Of Engineering Vignan's Lara Institute Of Technology & Science Bhoj Reddy Engineering College For Women** 2022  
Branch: Information Technology CGPA: 96

## Experience

---

- **Jacinth Paul Academy** 2024-03-21 - 2024-06-02  
Web Developer Intern During my time at Jacinth Paul Academy as a Web Developer Intern, I gained valuable experience in building and maintaining websites. I collaborated with the team to create user-friendly interfaces and implement new features. I also worked on troubleshooting and resolving technical issues to ensure the optimal performance of the website. Additionally, I participated in meetings to discuss project requirements and provide innovative solutions. My internship at
- **Kavi Art Studio** 2022-04-02 - 2022-07-02  
Freelancer As a Freelancer at Kavi Art Studio, I was responsible for providing IT solutions and support to enhance the studio's online presence. I created and implemented various digital strategies to improve user engagement and website functionality. Additionally, I collaborated with the design team to ensure seamless integration of IT solutions with artistic projects. My role also involved troubleshooting technical issues and optimizing systems for improved performance.

## Projects

---

- **Cross-platform Coding Performance Analysis**  
Developed a centralized platform to monitor coding progress across various platforms, involved in front-end and back-end development, and optimized performance tracking procedures for enhanced efficiency.
- **Certificate Generator**  
Created a Python script to extract Excel data and produce personalized certificates in PDF and image formats, streamlining printing for large volumes, reducing manual workload by up to 90%.

## Certifications

---

- **Data Structures and Algorithms** Smart Interviews
- **MERN Stack Development** VNRVJIET
